- **Dampers** Part Number: 51522-ZN8-000 Price: 218,000 JPY
- **Dampers + Springs** Part Number: 51521-ZN8-000 Price: 236,000 JPY
- **Dampers + Springs + Pillow-upper mount** Part Number: 51520-ZN8-000 Price: 286,000 JPY

FEATURES

- With 18-step damping force adjustment, you can fine-tune your vehicle's handling from soft to firm.
- The adjustable bracket maintains spring preload while allowing you to adjust the ride height.
- The front bottom bracket comes with a camber adjustment feature, allowing you to tweak the camber angle ($\pm 0^\circ$, -1.7° , -3.5°) compared to the stock settings.
- Two wrenches for adjusting ride height are included in the kit.
- Spring rate can be changed at no extra cost, and the kit is customizable and upgradable, ensuring it suits your needs for the long term.

DA Supplied springs

Front : 6K-160mm-ID60
Rear : 7K-200mm-ID60

DA Adjustable height range to standard height

Front : approx +30mm~-30mm
Rear : approx +40mm~-30mm

DESCRIPTION

The TOYOTA GR86 TypeDA Damper is designed to deliver a responsive and versatile driving experience. It covers a wide range of settings, offering agile sporty driving in a hard setting and smooth, comfortable cruising in a soft setting. Its extensive adjustment range caters to various driving styles. The rear shell case is made of lightweight and strong aluminum, which improves both the design and performance of the pistons. We invite you to try it out and experience its performance first-hand.
